Microsoft Excel 2010: Comprehensive Prentice Hall

Microsoft Office is the industry standard in business software. Learn how to make Office 2007 work for you! As part of the In Business System, "Microsoft Office 2007 In Business Core" is the only Office 2007 book that prepares students expressly for core business courses such as Accounting, Economics, Marketing, Finance, and Business Statistics by providing exposure to

real business files that meet professional standards, useful references that can be used in later courses, an understanding of how to use the software as a tool to accomplish business goals, and coverage of the core Office skills needed in business. The second edition includes several new features that reinforce the primary mission of the series, which is to illustrate how Microsoft Office is used

to accomplish both personal and professional business objectives. Microsoft Office skills are essential for anyone working in a business environment. Whether you need Word skills for Marketing or Excel skills for Accounting, "Microsoft Office 2007 In Business Core" ensures that you can meet your business goals.
