This offers honest and largely unedited glimpses into the world of social work of 40 years or so ago. Illustrated by the professional practice of one Colin Millwood, an enthusiastic but otherwise green social worker, it coincides with the early beginnings of his arrival at his local Social Services Department.

The final days of the American presence in Afghanistan bring Adam Hayes a summons he can't ignore in the latest electrifying thriller from the world of Robert Ludlum. Adam Hayes has stepped away from the field for the last time. He's promised his wife that he won't put his life on the line any more, and there's nothing that will make him break a promise to his wife. Well...almost nothing. With America withdrawing from Afghanistan and the Taliban closing in, Abdul Nassir reached out to his old friend. Ten years ago, he saved the American's life, and the time has come for repayment. The Afghan is desperate to flee his homeland. Like most of his countrymen, he is petrified by the Taliban takeover, but he also can't trust the Americans. He's the only eyewitness to a massacre committed by a rogue team of CIA contractors. Not only can he identify the butcher who directed the bloodbath, he also has photographic proof. He'll only be safe when those pictures are made public. Now, there's just one man he can trust to get him to safety--Adam Hayes.

From its 1939 "Nickel, Nickel" jingle to pathbreaking collaborations with Michael Jackson and Madonna to its pair of X Factor commercials in 2011 and 2012, Pepsi-Cola has played a leading role in drawing the American pop music industry into a synergetic relationship with advertising. This idea has been copied successfully by countless other brands over the years, and such commercial collaboration is commonplace today—but how did we get here? How and why have pop music aesthetics been co-opted to benefit corporate branding? What effect have Pepsi's music marketing practices in particular had on other brands, the advertising industry, and popular music itself? Soda Goes Pop investigates these and other vital questions around the evolving relationships between popular music and corporate advertising. Joanna K. Love joins musical analysis, historical research, and cultural theory to trace parallel shifts in these industries over eight decades. In addition to scholarly and industry resources, she draws on first-hand accounts, pop culture magazines, trade press journals, and other archival materials. Pepsi's longevity as an influential American brand, its legendary commercials, and its pioneering, relentless pursuit of alliances with American musical stars makes the brand a particularly instructive point of focus. Several of the company's most famous ad campaigns are prime examples of the practice of redaction, whereby marketers select, censor, and restructure musical texts to fit commercial contexts in ways that revise their aesthetic meanings and serve corporate aims. Ultimately, Love demonstrates how Pepsi's marketing has historically appropriated and altered images of pop icons and the meanings of hit songs, and how these commercials shaped relationships between the American music business, the advertising industry, and corporate brands. Soda Goes Pop is a rich resource for scholars and students of American studies, popular culture, advertising, broadcast media, and musicology. It is also an

accessible and informative book for the general reader, as Love's musical and theoretical analyses are clearly presented for non-specialist audiences and readers with varying degrees of musical knowledge.
