IMPORTANT: this book was not written to promote a live event where I will give you more information. I poured all my knowledge into this book, saving nothing. My name is Manuel Rise, and I am a professional blogger since 2014. "Professional blogger" means I can live my life blogging: I have a blog (more than one, in truth) through which I sell a service. Several years have passed since I started writing articles, and the world of blogs has changed a lot. Honestly, it changes every year. So, to keep up with the times, every year, I attend SEO courses by Google, copywriting, and basically, every kind of course related to the world of blogs. Unfortunately, there is no great course on the internet that explains how to build a blog and earn money by selling a product or service. That's why - alongside my business - I

decided to write this book. Everything you will find in this book is the result of my experience, and that's what allowed me to leave my job and be able to live only with my blogs. It's not a simple journey: making money with a blog is not a quick process and presents many pitfalls. Making sure that our blog reaches the first pages of Google results is a matter that takes much time and much work. And even if it is so fashionable "earns with your passions", it's unfortunately not a real matter. You cannot think to earn money only by writing; you always need to sell something link a product, like a service, like an affiliation... etc. In this book, I will try to be as clear as possible and show you how to set everything up properly in your blog and start to make a lot of money. WHAT YOU WILL FIND IN THIS BOOK? ● The best ways to make money through your blog, which are not «Write your passions and get ton of money!». ● Evergreen blog ideas. ● A serious affiliate marketing opportunity. ● How to self-financing. ● How to start a blog step-by-step. ● The importance of the logo, colors, and design of your blog: which parts are important and what you have to write in each of them. ● How to define the right target of your readers and understand how to write to attract them to your posts. ● How to always have content fresh to write (one of these techniques is crazy, and no one has ever told you!). ● Advance copywriting skills to keep the reader glued to your posts. ● How to increase your blogs' reputation. ● How to become an authority in your market. ● How to manage your social media profiles. ● Online marketing principles (this course alone costs more than \$ 1.000). ● Advanced SEO techniques to write posts Google love. ● How to manage Facebook Ads and Google Ads to destroy your competitors forever. ● ...and much more! Don't worry: it's a long process, but nothing hard. You can learn everything, even if you never write a single blog post in your life! Scroll to the top of the page and select the BUY NOW button!

Why nearly 90% of bloggers only make pocket money from their work... and how to be part of the top 10% that makes the big bucks. Just a few years ago, I was fired from a law firm I used to work for, was heavily in debt, and was looking for ways to make some side income online. That's around the time I started blogging. And because I really had no other choice, I pushed myself into learning every possible way I could turn my new fitness blog into a money-making machine. So, I did what you're probably doing: going through the YouTube videos, reading all the articles, buying all the courses, etc. To my dismay, I encountered the 3 challenges that stop most bloggers from making any significant income online: Information overload. The piles of information on the topic and the 'analysis-paralysis' that I got as a result prevented me from getting anything done. I followed outdated info. The internet evolves rapidly and what worked in 2018 may not necessarily work in 2019. I lacked a roadmap with a destination. Not knowing what you want and lacking a step-by-step procedure to get there is the perfect recipe for not getting any results at all. Through hard work and dedication, I was able to get past these hurdles and eventually made my first 5 figure month a bit over a year later. Today, I am a multiple six-figure earner. Because I understand what you're going through, I've written: "Blogging for Profit 2019". In this book, I have structured an easy-to-follow, step-by-step plan based on up-to-date information that will make you start your journey towards profit on the right foot. In this book, you will: Discover the hidden step in blog creation that will make or break your blog (and how to fix this if you missed it). Up-to-date blog monetization strategies for 2019 Discover how to read the minds of your audience and write tailor-suited material for them every time! Apply savvy internet marketing secrets for sending massive traffic of buying customers to your blog. Win the social media game for getting even more traffic (No, this is not Facebook Ads). Optimize your blog to be found on the internet the right way. Discover million-dollar brand secrets for having your

readers come back to your blog time and time again. Bullet-proof blog monetization strategies that can make you passive income in less than 60 days. 2019 may just be the perfect time to start creating REAL freedom in your life if you play your cards right. But Russell, I can just learn all of this on my own, can't I? You could- and you could make it work with enough time and money put in. However, that would cost you a LOT more than the price of this book. And what if I have no sales experience? Can I still make money? No worries, we're not force-pitching products to anyone. Instead, we're making interested customers come to us through our blog. What if I already have a blog? With a few tweaks, we can optimize it for making money. So don't sweat, it's nothing we can't change and improve. What are you waiting for? Click the 'add to cart' button and get your copy of Blogging for Profit 2019!

Author of cult classics *The Pumpkin Plan* and *The Toilet Paper Entrepreneur* offers a simple, counterintuitive cash management solution that will help small businesses break out of the doom spiral and achieve instant profitability. Conventional accounting uses the logical (albeit, flawed) formula: Sales - Expenses = Profit. The problem is, businesses are run by humans, and humans aren't always logical. Serial entrepreneur Mike Michalowicz has developed a behavioral approach to accounting to flip the formula: Sales - Profit = Expenses. Just as the most effective weight loss strategy is to limit portions by using smaller plates, Michalowicz shows that by taking profit first and apportioning only what remains for expenses, entrepreneurs will transform their businesses from cash-eating monsters to profitable cash cows. Using Michalowicz's Profit First system, readers will learn that: · Following 4 simple principles can simplify accounting and make it easier to manage a profitable business by looking at bank account balances. · A small, profitable business can be worth much more than a large business surviving on its top line. · Businesses that attain early and sustained profitability have a better shot at achieving long-term growth. With dozens of case studies, practical, step-by-step advice, and his signature sense of humor, Michalowicz has the game-changing roadmap for any entrepreneur to make money they always dreamed of.

A deep dive into the political roots of advertising on the internet The contemporary internet's de facto business model is one of surveillance. Browser cookies follow us around the web, Amazon targets us with eerily prescient ads, Facebook and Google read our messages and analyze our patterns, and apps record our every move. In *Profit over Privacy*, Matthew Crain gives internet surveillance a much-needed origin story by chronicling the development of its most important historical catalyst: web advertising. The first institutional and political history of internet advertising, *Profit over Privacy* uses the 1990s as its backdrop to show how the massive data-collection infrastructure that undergirds the internet today is the result of twenty-five years of technical and political economic engineering. Crain considers the social causes and consequences of the internet's rapid embrace of consumer monitoring, detailing how advertisers and marketers adapted to the existential threat of the internet and marshaled venture capital to develop the now-ubiquitous business model called "surveillance advertising." He draws on a range of primary resources from government, industry, and the press and highlights the political roots of internet advertising to underscore the necessity of political solutions to reign in unaccountable commercial surveillance. The dominant business model on the internet, surveillance advertising is the result of political choices—not the inevitable march of technology. Unlike many other countries, the United States has no internet privacy law. A fascinating prehistory of internet advertising giants like Google and Facebook, *Profit over Privacy* argues that the internet did not have to turn out this way and that it can be remade into something better.
