The main theme of the
proceedings of the 4th
International Conference
on Teacher Education and
Professional Development
(InCoTEPD 2019) is
"Teacher Education and
Professional Development

in Industry 4.0". The
papers have been
carefully grouped under
the subthemes of teacher
education and
professional development,
curriculum, learning
materials, teaching-
learning process,

technology and media, and assessment in Industry 4.0 education. They also cover vocational education in the era in question and one section is devoted to Industrially disadvantaged societies. As these papers were presented at an internationally refereed conference dedicated to the advancement of theories and practices in education, they provide an opportunity for academics and professionals from various educational fields with cross-disciplinary

interests to bridge the knowledge gap and promote research esteem and the evolution of pedagogy.

The Eighth Edition of this authoritative, best-selling resource from distinguished author Tom Gunning gives aspiring and practicing teachers the help they need to become highly effective teachers--so that their students become proficient readers and

writers well on their way to preparing for college and careers. Drawing on landmark research that focuses on highly effective practices, such as setting goals, monitoring progress, and teaching strategies, Gunning's *Teaching Literacy Strategies for All Students* is packed with step-by-step guidance for teaching reading and writing, including 30 sample lessons that cover virtually every major literacy skill and strategy, incorporating the key elements of effective

assessment and instruction. The book emphasizes how to adapt instruction for struggling readers and writers, English language learners, and special needs students; stresses effective steps teachers can use to implement Response to Intervention; and familiarizes teachers with the reading and writing requirements stemming from the widely-adopted Common Core State Standards. *Academic Language Mastery: Vocabulary in Context* CRC Press

We are delighted to introduce the Proceedings of the Second International Conference on Progressive Education (ICOPE) 2020 hosted by the Faculty of Teacher Training and Education, Universitas Lampung, Indonesia, in the heart of the city Bandar Lampung on 16 and 17 October 2020. Due to the COVID-19 pandemic, we took a model of an online organised event via Zoom. The theme of the 2nd ICOPE 2020 was “Exploring the New Era of Education”, with various

related topics including Science Education, Technology and Learning Innovation, Social and Humanities Education, Education Management, Early Childhood Education, Primary Education, Teacher Professional Development, Curriculum and Instructions, Assessment and Evaluation, and Environmental Education. This conference has invited academics, researchers, teachers, practitioners, and students worldwide to

participate and exchange ideas, experiences, and research findings in the field of education to make a better, more efficient, and impactful teaching and learning. This conference was attended by 190 participants and 160 presenters. Four keynote papers were delivered at the conference; the first two papers were delivered by Prof Emeritus Stephen D. Krashen from the University of Southern California, the USA and Prof Dr Bujang Rahman, M.Si. from Universitas

Lampung, Indonesia. The second two papers were presented by Prof Dr Habil Andrea Bencsik from the University of Pannonia, Hungary and Dr Hisham bin Dzakiria from Universiti Utara Malaysia, Malaysia. In addition, a total of 160 papers were also presented by registered presenters in the parallel sessions of the conference. The conference represents the efforts of many individuals. Coordination with the steering chairs was essential for the success of the

conference. We sincerely appreciate their constant support and guidance. We would also like to express our gratitude to the organising committee members for putting much effort into ensuring the success of the day-to-day operation of the conference and the reviewers for their hard work in reviewing submissions. We also thank the four invited keynote speakers for sharing their insights. Finally, the conference would not be possible without the excellent

papers contributed by authors. We thank all authors for their contributions and participation in the 2nd ICOPE 2020. We strongly believe that the 2nd ICOPE 2020 has provided a good forum for academics, researchers, teachers, practitioners, and students to address all aspects of education-related issues in the current educational situation. We feel honoured to serve the best recent scientific knowledge and development in education

and hope that these proceedings will furnish scholars from all over the world with an excellent reference book. We also expect that the future ICOPE conference will be more successful and stimulating. Finally, it was with great pleasure that we had the opportunity to host such a conference.

Developing Reading

Skills SAGE Publications Although proficiency in vocabulary has long been recognized as basic to reading proficiency, there has been a paucity of research on vocabulary

teaching and learning over the last two decades. Recognizing this, the U.S. Department of Education recently sponsored a Focus on Vocabulary conference that attracted the best-known and most active researchers in the vocabulary field. This book is the outgrowth of that conference. It presents scientific evidence from leading research programs that address persistent issues regarding the role of vocabulary in text comprehension. Part I examines how vocabulary

is learned; Part II presents instructional interventions that enhance vocabulary; and Part III looks at which words to choose for vocabulary instruction.

Other key features of this timely new book include:

*Broad Coverage. The book addresses the full range of students populating current classrooms--young children, English Language Learners, and young adolescents.

*Issues Focus. By focusing on persistent issues from the perspective of critical school populations, this

volume provides a rich, scientific foundation for effective vocabulary instruction and policy.

*Author Expertise. Few volumes can boast of a more luminous cast of contributing authors (see table of contents). This book is suitable for anyone (graduate students, in-service reading specialists and curriculum directors, college faculty, and researchers) who deals with vocabulary learning and instruction as a vital component of reading proficiency.

A fully-updated and reworked version of the classic book by Stephen Kemmis and Robin McTaggart, now joined by Rhonda Nixon, *The Action Research Planner* is a detailed guide to developing and conducting a critical participatory action research project. The authors outline new views on 'participation' (based on Jürgen Habermas's notion of a 'public sphere'), 'practice' (as

shaped by practice architectures), and 'research' (as research within practice traditions). They provide five extended examples of critical participatory action research studies. The book includes a range of resources for people planning a critical participatory research initiative, providing guidance on how to establish an action research group and identify a shared concern, research ethics, principles of procedure for action researchers, protocols for

collaborative work, keeping a journal, gathering evidence, reporting, and choosing academic partners. Unlike earlier editions, The Action Research Planner focuses specifically on critical participatory action research, which occupies a particular (critical) niche in the action research 'family'. The Action Research Planner is an essential guide to planning and undertaking this type of research.

Crystal-clear and comprehensive yet concise, this text describes the steps involved in the curriculum design process, elaborates and justifies these steps, and provides opportunities for practicing and applying them. The description of the steps is done at a general level so that they can be applied in a wide range of particular circumstances. The

process comes to life through plentiful examples of actual applications of the steps. Each chapter includes: examples from the authors' experience and from published research tasks that encourage readers to relate the steps to their own experience case studies and suggestions for further reading that put readers in touch with others' experience Curriculum, or course, design is largely a 'how-to-do-it' activity that involves the integration of knowledge from many of

the areas in the field of Applied Linguistics, such as language acquisition research, teaching methodology, assessment, language description, and materials production. Combining sound research/theory with state-of-the-art practice, Language Curriculum Design is widely applicable for ESL/EFL language education courses around the world.

One of essential elements of English is vocabulary. English has enormous number of vocabularies, therefore, mastering

English is frequently troublesome for most of Indonesian students who learn English as a foreign language. Every English teacher in Indonesia are encouraged to use effective ways or strategies in teaching vocabularies. One of recommended ways of teaching vocabularies is using explicit morphological instructions. This means that English teachers have to explain or discusses explicitly the morphological components of English

like how English words are constructed. The English teacher may introduce how affixation, compounding or clipping work in English vocabulary building. The researchers as English lecturer commonly hear the complaints of English university students about the difficulty of learning English vocabulary. Besides the huge number of English vocabularies, the limitation of learning time, and the differences between the English and Indonesian language system commonly

become the causes of this struggle. Based on this situation, the researchers concurred to conduct action research to overcome this problem. This book is a monograph of a study entitled "Promoting Students' English Vocabulary through Explicit Morphological Instructions and Exploring Students' Voices". This monograph consists of Five Chapters called Chapter I (Introduction), Chapter II (English Vocabulary), Chapter III (Morphology), Chapter IV (Explicit

Morphological Instructions), and Chapter V (The Example) Some relevant documents to this study are also attached on the appendixes. The appendixes consist of the test questions, the observation sheet, the questionnaire, and the teaching materials.

The strategies, puzzles, and questions give you enough exposure to the Insider Language to use it with confidence and make it part of your long-term memory. The 7th grade words you absolutely must know book is an awesome tool to use over the summer as it will help you develop a strong working Insider's Language before your student even begins his or her year. Don't risk losing

the gains earned during the year. Learn the Secret to Success in 7th grade! After nearly 20 years of teaching Lewis Morris discovered a startling fact: Most students didn't struggle with the subject, they struggled with the language. It was never about brains or ability. His students simply didn't have the knowledge of the specific language needed to succeed. Through experimentation and research, he discovered that for any subject there was a list of essential words, that,

when mastered, unlocked a student's ability to progress in the subject. Lewis called this set of vocabulary the "Insider's Words". When he applied these "Insider's Words" the results were incredible. His students began to learn with ease. He was on his way to developing the landmark series of Books and applications to teach this "Insider's Language" to students around the world. Our books and applications are helpful to any student. They are especially helpful to

struggling students, English language learners, and students beginning a course of study. The strongest students will also enjoy the puzzle and game aspect of the books. In all cases, the books provide an enjoyable break from the tedious and mundane experience of traditional test preparation. Get your copy of the 7th grade words you absolutely must know today!

Vocabulary Instruction

Routledge

From Reader to Reading Teacher is a self-contained, student-centered methods text that connects reading theory to practical classroom activities. The book begins by leading teachers to explore their beliefs and assumptions about the nature of reading and to analyse their own personal reading strategies. By studying the factors that influence both native

language and second language reading, the text prepares teachers for a critical examination of the pedagogical issues central to the reading classroom. Teachers learn how to select appropriate reading activities and to plan effective reading lessons. Written in clear, understandable language, this text provides a wealth of examples and exercises, making it ideal for introductory courses on the teaching of second language reading.

Anaheim University Building on Michael Graves's bestseller, The Vocabulary Book, this new resource offers a comprehensive plan for vocabulary instruction that K-12 teachers can use with English language learners. It is broad enough to include instruction for students who are just beginning to build their English vocabularies, as well as for students whose English vocabularies are approaching those of native speakers. The authors describe a four-

pronged program that follows these key components: providing rich and varied language experiences; teaching individual words; teaching word learning strategies; and fostering word consciousness. This user-

friendly book integrates up-to-date research on best practices into each chapter and includes vignettes, classroom activities, sample lessons, a list of children's literature, and more. *Teaching Vocabulary to*
