How to Pinstripe Wolfgang Productions
There was a time, as recently as the 1980s, when storefronts, murals, banners, barn signs, billboards, and even street signs were all hand-lettered with brush and paint. But, like many skilled trades, the sign industry has been overrun by the techno-fueled promise of quicker and cheaper. The resulting proliferation of computer-designed, die-

cut vinyl lettering and inkjet printers has ushered a creeping sameness into our visual landscape. Fortunately, there is a growing trend to seek out traditional sign painters and a renaissance in the trade. In 2010 filmmakers Faythe Levine, coauthor of *Handmade Nation*, and Sam Macon began documenting these dedicated practitioners, their time-honored methods, and their appreciation for quality and craftsmanship. *Sign Painters*, the first anecdotal history of the craft, features stories and photographs of more than two dozen

sign painters working in cities throughout the United States. With a foreword by legendary artist (and former sign painter) Ed Ruscha, this vibrant book profiles sign painters young and old, from the new vanguard working solo to collaborative shops such as San Francisco's New Bohemia Signs and New York's Colossal Media's Sky High Murals. Even before the heyday of Von Dutch and Big Daddy, the ultimate way to

personalize your car or motorcycle was to lay some wicked lines on top of the paintwork. Done with a steady hand and an eye for style, pinstripes speak volumes. In *How to Pinstripe*, acclaimed veteran striper Alan Johnson teaches you everything you need to know to get started, to further your mastery of the form, or to simply understand how a good design comes together. Following a primer on the history and evolution of pinstriping, this book launches into a step-by-step guide to the pinstriping process--from choosing paint and brushes that suit your style and abilities, to preparing surfaces, experimenting with symmetrical and asymmetrical designs, striping freehand, and using grids and patterns. While stressing the importance of finding your own style and

having fun with the hobby, Johnson also explains the basics of color theory and unique considerations for antique and classic cars, hot rods and customs, and motorcycles. For more advanced pinstripers, there's also tried-and-true advice on apprenticing and working car shows.
